

Lubricants and Lubrication

3rd Edition

Theo Mang, Faculty of Mechanical Engineering of the RWTH, Aachen, Germany

Wilfried Dresel, Fuchs Petrolub SE, Ludwigshafen, Germany

Completely revised and updated and now in two volumes. This classic focuses on sustainability and the latest developments, technologies and processes of this multi billion dollar business.

- 35% new material focusing on sustainability and the latest developments, technologies and processes of this multi billion dollar business
- Provides chemists and engineers with a clear interdisciplinary introduction and guide to all major lubricant applications, looking not only at the various products but also at specific application engineering criteria
- All chapters are updated in terms of environmental and operational safety. New guidelines, such as REACH, recycling alternatives and biodegradable base oils are introduced
- Discusses the integration of micro- and nano-tribology and lubrication systems
- Reflects the knowledge of Fuchs Petrolub SE, one of the largest companies active in the lubrication business
