

Nanotechnology in Catalysis

Applications in the Chemical Industry, Energy Development and Environment Protection

Bert Sels and Marcel Van de Voorde

3 Volume Set

**Interdisciplinary at its best
- state-of-the-art handbook
on the tangible benefits of
nanotechnology in catalysis.**

- A promise delivered: in the combination with catalysis, nanotechnology has proven its value both scientifically and economically
- Strong industry focus: expert authors report on real-life applications that are at the brink of commercialization
- Timely: R&D efforts in the field have led to a plethora of novel applications in the last decade, making an up-to-date overview indispensable
- With forewords by Nobel laureates Ertl and Lehn

Publication Date: Sep 9 2017
ISBN13: 978-3-527-33914-3
Online ISBN: 978-3-527-69982-7
Hardcover • 1190 pages
List Print Price: US\$645.00
