

Nanotechnology for Energy Sustainability

Baldev Raj; Marcel Van de Voorde and Yashwant Mahajan

An essential handbook for all experts in the field - from academic researchers and engineers to developers in industry.

- Broad readership: for all experts in the field - from academic researchers and engineers to developers in industry
- Complete: detailed overview of the field of energy and nanotechnology-related aspects in energy
- Organized: well-structured book that represents an essential reference for a broad readership
- Important: Baldev Raj represents an expert in the field with 1000 scientific publications and 70 books on energy research

Publication Date: Feb 22 2017
ISBN13: 978-3-527-34014-9
Online ISBN: 978-3-527-69610-9
Hardcover • 1316 pages
List Print Price: US\$645.00
