Technology Has a Growing Role in Student Success

The Shift to Digital = More Time Studying

Students who study on their mobile devices study 40 minutes more each week than those who do not. Studies indicate a 10-fold increase in study minutes on mobile devices from 2011 to 2012.

Use of *WileyPLUS*, the research-based, online learning environment which always contains the entire e-textbook, has been proven to increase learning outcomes by as much as one letter grade.
