**Anthropology For Dummies (2nd Edition)**

Cameron M. Smith

9781119784203, 1119784204

Pub Date: 5/11/21

\$24.99 USD

384 pages

Paperback

Education / Teaching Methods & Materials / Social Science

Summary: What is anthropology? What can it tell us about the origin of our species? How does it inform today's most contested issues? *Anthropology For Dummies, 2nd Edition* will answer these questions and more. Step back in time to the world of our primate ancestors and dig into the rich science of archaeology. Follow the evolution of human language and communication. Explore race, ethnicity, identity, and gender, and see the modern world through an anthropologist's eyes.

Updates for this edition:

- New fossil discoveries, including discussion of bipedal locomotion

**Death of a Traveller : A Counter Investigation**

Didier Fassin

9781509547418, 150954741X

Pub Date: 7/13/21

\$22.95 USD

160 pages

Paperback

Social Science / Anthropology / Cultural & Social

Summary: It is a simple story. A 37-year-old man belonging to the Traveller community is shot dead by a special unit of the French police on the family farm where he was hiding since he failed to return to prison after temporary release. The officers claim self-defence. The relatives, present at the scene, contest that claim. A case is opened, and it concludes with a dismissal that is upheld on appeal. Dismayed by these decisions, the family continues the struggle for truth and justice.

Giving each account of the event the same credit, Didier Fassin conducts a counter-investigation, based on the re-examination of all the available details and on the

Structural Anthropology Zero

Claude Levi-Strauss, Ninon Vinsonneau, Jonathan Ma...

9781509544981, 1509544984

Pub Date: 7/13/21

\$26.95 USD

300 pages

Paperback

Social Science / Anthropology / Cultural & Social

Summary: This volume of Lévi-Strauss's writings from 1941 to 1947 bears witness to a period of his work which is often overlooked but which was the crucible for the structural anthropology that he would go on to develop in the years that followed.

Like many European Jewish intellectuals, Lévi-Strauss had sought refuge in New York while the Nazis overran and occupied much of Europe. He had already been introduced to Jakobson and structural linguistics but he had not yet laid out an agenda for structuralism, which he would do in the 1950s and 60s. At the same time, these American years were the time when Lévi-Strauss would learn of some of the world's

**Towards an Anthropology of Data**

9781119816768, 1119816769

Summary: This volume presents a set of theoretically inventive pieces that engage with data across its many locations, from government databases to ecological field stations, from kitchen tables to concrete bunkers. The contributors demonstrate how thinking with data can be conceptually generative for anthropology, prompting us to reconsider our understanding of topics including bodies, persons, and the social itself. 'Data' is a notoriously slippery concept, often signaling claims to remote objectivity and universality; by putting data in its place, the pieces collected here develop conceptual tools that will prove useful for anthropologists who find 'data' in their data.

Information at War : Journalism, Disinformation, and Modern Warfare

Philip Seib
9781509548576, 1509548572
Pub Date: 8/30/21
\$24.95 USD
224 pages
Paperback
Language Arts & Disciplines / Journalism

Summary: A war's outcome is determined by more than bullets and bombs. In our digital age, the proliferation of new media venues has magnified the importance of information – whether its content is true or purposely false – in battling an enemy and defending the public.

In this book, Philip Seib, one of the world's leading experts on media and war, offers a probing analysis of the role of information in warfare from the Second World War to the present day and beyond. He focuses on some of the thorniest issues on the contemporary agenda: When untruthful and inflammatory information poisons a nation's political processes and weakens its social fabric, what kind of

Love and Communication

Paddy Scannell
9781509547531, 1509547533
Pub Date: 8/16/21
\$19.95 USD
160 pages
Paperback
Language Arts & Disciplines / Communication Studies

Summary: *Love and Communication* is an intriguing philosophical and religious inquiry into the meaning of "talk" – and ultimately the meaning of "being human."

Taking an historical approach, Paddy Scannell argues that the fundamental media of communication are (and always have been) talk and writing. Far from being made redundant by twentieth-century new media (radio and television), these old media laid the foundation for today's technologies (AI and algorithms, for instance). Emphasizing these linkages, Scannell makes the case for recognizing what a religious sensibility might reveal about these technologies and the fundamental differences between a humanmade world and a

Youth on Screen : Representing Young People in Film and Television

David Buckingham
 9781509545261, 1509545263
 Pub Date: 8/16/21
 \$24.95 USD
 256 pages
 Paperback
 Social Science / Media Studies

Summary: Right from the origins of cinema, countless films and television dramas have offered sensational and seductive representations of young people's lives. Youth is typically associated with energy, idealism and physical beauty, but it is often represented as both troubled and troubling. These representations are almost always created by adults, implicitly reflecting an adult perspective on how young people 'come of age'.

Youth on Screen provides a historical account of representations of youth in Britain and the United States, stretching back over seventy years. From *Blackboard Jungle* to *This is England*, and from *Jailhouse Rock* to *Skins*, it

Social Science / Popular Culture

Summary: Facebook has fundamentally changed how the world connects. No other company has played a greater role in the history of social networking online. Yet Facebook is no longer simply a social networking site or social media platform. Facebook is Facebook.

Taina Bucher shows how Facebook has become a thing and an idea of its own: something that cannot be fully described using broader categories. Facebook has become so commonplace that most people have a conception of what it is, yet it increasingly defies categorization. If we want to understand Facebook's power in contemporary society and culture, Bucher argues, we need to start by challenging our

Summary:**A practical guide to F. Scott Fitzgerald's works for middle and secondary students**

F. Scott Fitzgerald was an American novelist, essayist, and writer best known for his glamorous novels that detailed life in America's Jazz Age—a term which he popularized. Throughout his career, Fitzgerald published four novels, four collections of short stories, and 164 short stories in magazines. His work commonly focused on themes of ambition and loss, money and class, and the promise and disappointment of America and its vaunted dream. In his lifetime, Fitzgerald gained fame for his *The Great Gatsby* and *This Side of Paradise*. Today, his works are taught in middle

Summary: A practical guide to Sylvia Plath's works for middle and secondary school students

One of the most dynamic and admired poets of the 20th century, Sylvia Plath wrote work about war, motherhood, jealousy, rage, grief, death, and mental illness that challenged preconceptions about what poetry should be about. The enduring power of Plath's poetry and prose continues to attract and fascinate a multitude of readers. Best known for her poems "Daddy" and "Lady Lazarus" and the novel *The Bell Jar*, Plath starkly expressed a sense of alienation closely linked to both her personal experiences and the wider situation of women throughout

Pub Date: 5/18/21
\$29.95 USD
352 pages
Paperback
Language Arts & Disciplines / Literacy

Summary: When our students enter middle and high school, the saying goes that they stop learning to read and start reading to learn. Then why is literacy still a struggle for so many of our students? The reality is that elementary school isn't designed to prepare students for Othello and Song of Solomon: so what do we do?

Love and Literacy steps into the classrooms of extraordinary teachers who have guided students to the highest levels of literacy. There is magic in their teaching, but that magic is replicable. It starts with a simple premise: kids fall in love with texts when they understand them, and that understanding comes from the right knowledge and/or the

Pub Date: 8/10/21
\$29.95 USD
272 pages
Hardcover
Education / Educational Psychology

Summary:

A freshly updated edition featuring research-based teaching techniques that faculty in any discipline can easily implement

Research into how we learn can help facilitate better student learning—if we know how to apply it. *Small Teaching* fills the gap in higher education literature between the primary research in cognitive theory and the classroom environment. In this book, James Lang presents a strategy for improving student learning with a series of small but powerful changes that make a big difference—many of which can be put into practice in a single class period. These are simple interventions that can be integrated into pre-existing techniques, along with clear descriptions of ...

Teach Like a Champion 3.0 (3rd Edition)

Pub Date: 9/15/21
\$22.95 USD
224 pages
Paperback
Education / Teaching Methods & Materials

Summary: *Why Play Works* provides a road map for schools in leveraging play as a tool for ensuring that access to social connection is prioritized in this process of adaptation. Aimed at educators, school administrators and parents, *Why Play Work's* aspiration is to promote the idea that play's future is deeply rooted in its past: a risky behavior that has nonetheless survived eons of evolution precisely because it teaches us to navigate the demands of social connection.

Why Play Works will feature sections on:

- **Why Play:** The importance of intentionally integrating play in day-to-day school operations-especially in this

Narrative of the Life of Frederick Douglass : The Black History Classic

Frederick Douglass, Tom Butler-Bowdon
9780857089106, 0857089102
Pub Date: 8/30/21
\$13.99 USD
240 pages
Hardcover
History / United States

Summary: *The Narrative of the Life of Frederick Douglass* is regarded as one of the most important accounts of slavery in 19th century America that has ever been written. The narrative recounts Douglass' life from early childhood growing up on a Southern Plantation to his eventual escape to his freedom to the North.

Frederick Douglass writes about his experiences with his slave owners, how he became educated and his struggle to teach other slaves, and about his eventual escape from slavery. As an escaped slave, Douglass became a passionate and respected abolitionist, and served as an inspiration to many other early African Americans.

Nature's Evil : A Cultural History of Natural Resources

Alexander EtKind, Sara Jolly
9781509547586, 1509547584
Pub Date: 10/18/21
\$35.00 USD
300 pages
Hardcover
History

Summary: This bold and wide-ranging book views the history of humankind through the prism of natural resources – how we acquire them, use them, value them, trade them, exploit them. History needs a cast of characters and in this story the leading actors are peat and hemp, grain and iron, fur and oil, each with its own tale to tell.

The uneven spread of available resources was the prime mover for trade, which in turn led to the accumulation of wealth, the growth of inequality and the proliferation of evil. Different sorts of raw material have different political implications and give rise to different social institutions. When a country switches its reliance from one commodity to

Play in Renaissance Italy

Peter Burke
9781509543434, 1509543430
Pub Date: 8/30/21
\$22.95 USD
120 pages
Paperback
History

Summary: Far from being merely 'frivolous', scholars in diverse fields now recognise how central games, play and playfulness are to human culture, development and ingenuity, and how vital to the great scientific, political and artistic endeavours of the Renaissance world.

From comic verse to practical jokes, pornography to satire, acting to acrobatics, the Renaissance witnessed the flowering of play in all its forms. In the first wide-ranging and accessible introduction to play in Renaissance Italy, Peter Burke, celebrated historian of the Italian Renaissance, synthesises over forty years' research, explores the various forms of play in this period and offers an overview that

Religion / Christian Church / History

Summary: The updated new edition of the classic textbook, providing a comprehensive, up-to-date, and accessible introduction to Reformation thought

Reformation Thought is a clear, engaging, and highly accessible introduction to the major concepts of the European Reformation of the sixteenth century. Written for students with little to no knowledge of Christian theology or history, this popular textbook explains and contextualizes the ideas of every major thinker of the age, as well as the Reformation's many components, such as including Lutheranism, Calvinism, Anabaptism, and the Catholic and English Reformations. The text breaks down the core themes

Paperback
History

Summary: Identifying gaps in knowledge is the first duty of any historian who sets out to understand the past. It is impossible fully to understand our forebears without some idea of what they did *not* know: the history of ignorance is an indispensable part of history itself.

Here Alain Corbin focuses on our planet, exploring its mysteries past and present, and the intensity and eventual decline of the modes of terror and wonder it aroused. For thousands of years, humans knew nearly nothing about the earth. Certain locations on the map simply read 'Terra Incognita'. Corbin recounts the many errors and uncertainties that littered the paths we followed in the attempt to discover

240 pages
Hardcover
History / Social History

Summary: The Life of Olaudah Equiano first published in 1789 in London, is the autobiography of Olaudah Equiano. The narrative represents a variety of styles, including slavery narrative, travel narrative, and spiritual narrative. The book describes Equiano's time spent in enslavement, and documents his attempts at becoming an independent man through his study of the Bible, and his eventual success in gaining his own freedom.

Born in the area that is now southern Nigeria, he was kidnapped with his sister at around the age of 11, sold by local slave traders and shipped across the Atlantic to Barbados and then Virginia. After spells in Barbados and

History / Modern / 20th Century

Summary: Can a drop of perfume tell the story of the twentieth century? Can a smell bear the traces of history? What can we learn about the history of the twentieth century by examining the fate of perfumes?

In this remarkable book, Karl Schlögel unravels the interconnected histories of two of the world's most celebrated perfumes. In tsarist Russia, two French perfumers – Michel Beaux and Auguste Michel – developed related fragrances honouring Catherine the Great for the 300th anniversary of the Romanov dynasty. During the Russian Revolution and Civil War, Beaux fled Russia and took the formula for his perfume with him to France, where he sought to adapt it to

240 pages

Hardcover

History / United States

Summary: Solomon Northup was born free as the son of an emancipated slave, who lived and worked in New York. In 1841, two con men offered him lucrative work playing fiddle in a circus, so he travelled with them to Washington, D.C., where he was drugged, kidnapped, and sold as a slave into the Red River region of Louisiana. For the next twelve years he survived as the human property of several different slave masters, where most of his suffering was at the hands of plantation owner Edwin Epps.

Twelve Years a Slave is Northup's harrowing memoir and is recognized as the most reliable, accurate eyewitness account of the daily lives of slaves. Not only as a significant historical

Philosophy

Summary: In everyday life, we generally assume that we can make our own decisions on matters which concern our own lives. We assume that a life followed only according to decisions taken by other people, against our will, cannot be a well-lived life – we assume, in other words, that we are and should be autonomous. However, it is equally true that many aspects of our lives are not chosen freely: this is true of social relations and commitments but also of all those situations we simply seem to stumble into, situations which just seem to happen to us. The possibility of both the success of an autonomous life and its failure are part of our everyday experiences.

Philosophy

Summary: Reality exists independently of human observers, but does the same apply to its structure? Realist ontologies usually assume so: according to them, the world consists of objects, these have properties and enter into relations with each other, more or less as we are accustomed to think of them.

Against this view, Rein Raud develops a radical process ontology that does not credit any vantage point, any scale or speed of being, any range of cognitive faculties with the privilege to judge how the world 'really' is. In his view, what we think of as objects are recast as fields of constitutive tensions, cross-sections of processes, never in complete

180 pages

Paperback

Philosophy

Summary: What we call growth today is in fact a tumorous growth, a cancerous proliferation which is disrupting the social organism. These tumours endlessly metastasize and grow with an inexplicable, deadly vitality. At a certain point this growth is no longer productive, but rather destructive. Capitalism passed this point long ago. Its destructive forces cause not only ecological and social catastrophes but also mental collapse. The destructive compulsion to perform combines self-affirmation and self-destruction in one. We optimize ourselves to death. Brutal competition ends in destruction. It produces an emotional coldness and indifference towards others as well as towards one's own self

Philosophy / History & Surveys

Summary: Conservatism is often labelled as a 'disposition', 'tradition', or even a set of kneejerk reactions, rather than an ideology. Its suspicion of grand theorising has lent itself to this characterisation, but in this book leading political theorist Edmund Neill challenges this view.

He argues that that conservatism is better identified as an ideology, albeit one that, rather than putting forward positive values like 'liberty' or 'equality', conceptualizes human conduct as being partially dependent on forces beyond human volition, and prioritises cautiously managing change. He proceeds to chart the evolution of conservative thought from the French Revolution to the present, examining h

Paperback
Philosophy

Summary: This new book by the Italian philosopher Roberto Esposito addresses the profound crisis of contemporary politics and examines some of the philosophical approaches that have been used to try to understand and go beyond this crisis. Two approaches have been particularly influential – one indebted to the thought of Martin Heidegger, the other indebted to Gilles Deleuze. While opposed in their political thrust and orientation, both approaches remain trapped within the political ontology that has framed our conceptual language for some time.

In order to move beyond this political ontology, Esposito turns to a third approach that he characterizes as 'instituting

Philosophy

Summary: We are all fascinated by the mystery of metamorphosis – of the caterpillar that transforms itself into a butterfly. Their bodies have almost nothing in common. They don't share the same world: one crawls on the ground and the other flutters its wings in the air. And yet they are one and the same life.

Emanuele Coccia argues that metamorphosis – the phenomenon that allows the same life to subsist in disparate bodies – is the relationship that binds all species together and unites the living with the non-living. Bacteria, viruses, fungi, plants, animals: they are all one and the same life. Each species, including the human species, is the

Philosophy

Summary: This book is a critical inquiry into three ideas that have been at the heart of philosophical reflection since time immemorial: freedom, God and immortality. Their inherent connection has disappeared from our thought. We barely pay attention to the latter two ideas, and the notion of freedom is used so loosely today that it has become vacuous. Axel Hutter's book seeks to remind philosophy of its distinct task: only in understanding itself as human self-knowledge that articulates itself in these three ideas will philosophy do justice to its own concept.

In developing this line of argument, Hutter finds an ally in Thomas Mann, whose novel *Joseph and his Brothers* has

Pub Date: 8/2/21
\$22.95 USD
180 pages
Paperback
Philosophy

Summary: From the forests of Yellowstone to the steppes of the Haut-Var, the French philosopher and environmentalist Baptiste Morizot invites us to develop a different relationship to nature: to become detectives of nature and to follow the footprints of the many wonderful and extraordinary animals with which we share the earth – wolves, bears, snow leopards and others. By deciphering and interpreting their footprints and other signs, we gradually discover not only which animal it is but the animal's motives too. Through this kind of 'philosophical tracking', we come to see the world from the animal's point of view, to learn to live in this world from the perspective of another species. We...

Phenomenology : An Introduction (2nd Edition)

Stephan Käufer, Anthony Chemero
 9781509540662, 1509540660
 Pub Date: 7/13/21
 \$24.95 USD
 288 pages
 Paperback
 Philosophy / History & Surveys

Summary: A classic in its field, this comprehensive book introduces the core history of phenomenology and assesses its relevance to contemporary psychology, philosophy of mind, and cognitive science. It provides a clear, jargon-free explanation of central themes in the works of Husserl, Heidegger, Sartre, and Merleau-Ponty. From critiques of artificial intelligence research programs to ongoing work on embodiment and enactivism, Käufer and Chemero go on to trace how phenomenology has produced a valuable framework for analyzing cognition and perception, whose impact on contemporary psychological and scientific research, and philosophical debates, continues to grow.

 Pub Date: 7/13/21
 \$24.95 USD
 224 pages
 Paperback
 Philosophy / History & Surveys

Summary: Are humans rational creatures? Do we have free will? Can we ever know ourselves? These are some of the fundamental questions that have been discussed by philosophers over millennia. But recent empirical findings in psychology and neuroscience suggest we should reconsider them.

This textbook provides an engrossing overview of contemporary debates in the philosophy of psychology, and explores the ways in which the interaction and collaboration between psychologists and philosophers contributes to a better understanding of the human mind, cognition, and behaviour. Bortolotti and Miyazono discuss pivotal studies in

Politics, Economy, and Society : Writings and Lectures

Paul Ricoeur, Kathleen Blamey
 9781509543878, 1509543872
 Pub Date: 9/20/21
 \$28.95 USD
 280 pages
 Paperback
 Philosophy

Summary: The philosophy of Paul Ricoeur is rarely viewed through the lens of political philosophy, and yet questions of power, and of how to live together in the polis, were a constant preoccupation of his writings. This volume brings together a selection of his texts spanning six decades, from 1958 to 2003, which together present Ricoeur's political project in its coherence and diversity.

In Ricoeur's view, the political is the realm of a tension between 'rationality' (the attempt to provide a coherent explanation of the world) and 'irrationality', which manifests itself in force and repression. This 'political paradox' lies at the heart of politics, for the claim to explain the world gene...

 Hardcover
 Philosophy

Summary: This volume comprises the lecture course that Heidegger gave in 1941 on the metaphysics of German Idealism. The first part of the lecture course contains a preliminary consideration of the distinction between ground and existence. The elucidation of the conceptual history includes a striking confrontation with Kierkegaard's and Jaspers's concepts of existence, as well as an elucidation of the concept of existence in *Being and Time*, which Heidegger distinguishes from the former concepts. Heidegger's self-interpretation is not an end in itself, however, but rather a way of pointing to Schelling's distinction between ground and existence, whose root and inner necessity and whose variou

Philosophy / History & Surveys

Summary: A milestone in the study of value in human life and thought, written by one of the world's preeminent living philosophers

The Moral Powers: A Study of Human Nature is a philosophical investigation of the moral potentialities and sensibilities of human beings, of the meaning of human life, and of the place of death in life. It is an essay in philosophical anthropology: the study of the conceptual framework in terms of which we think about, speak about, and investigate *homo sapiens* as a social and cultural animal. This volume examines the diversity of values in human life and the place of moral value within the varieties of values.

Philosophy

Summary: Our societies today are characterized by a universal algophobia: a generalized fear of pain. We strive to avoid all painful conditions – even the pain of love is treated as suspect. This algophobia extends into society: less and less space is given to conflicts and controversies that might prompt painful discussions. It takes hold of politics too: politics becomes a palliative politics that is incapable of implementing radical reforms that might be painful, so all we get is more of the same.

Faced with the coronavirus pandemic, the palliative society is transformed into a society of survival. The virus enters the palliative zone of well-being and turns it into a quarantine

Pub Date: 8/2/21

\$22.95 USD

146 pages

Paperback

Philosophy

Summary: It is time for philosophy to return to the city. In today's crisis-ridden world of globalised capitalism, increasingly closed in on itself, it may seem harder than ever to think of ways out. Philosophy runs the risk of becoming the handmaiden of science and of a hollowed-out democracy. Donatella Di Cesare calls on philosophy instead to return to the political fray and to the city, the global polis, from which it was banished after the death of Socrates.

Suggesting a radical existentialism and a new anarchism, Di Cesare shows that Western philosophy has been characterised by a political vocation ever since its origins in Ancient Greece, and argues that the separation of philosophy

Pub Date: 6/8/21
\$19.95 USD
144 pages
Paperback
Philosophy / History & Surveys

Summary: We all have minds, but what exactly is a mind? Is your mind the same thing as your brain? How does what's happening in your mind cause your behaviour? Can you know what's going on in other people's minds? Can you even be sure what's going on in your own? Are babies conscious? How about cats? Or self-driving cars?

The philosophy of mind grapples with questions like these, exploring who we are and how we fit into the world. In this student-friendly guide, McClelland introduces the key ideas in philosophy of mind, showing why they matter and how philosophers have tried to answer them. He covers the major historical moments in philosophy of mind, from Descartes

9781509543724, 1509543724
Pub Date: 9/7/21
\$28.95 USD
328 pages
Paperback
Philosophy / Political

Summary: In this pathbreaking book, Pierre Charbonnier opens up a new intellectual terrain: an environmental history of political ideas. His aim is not to locate the seeds of ecological thought in the history of political ideas as others have done, but rather to show that all political ideas, whether or not they endorse ecological ideals, are informed by a certain conception of our relationship to the Earth and to our environment.

The fundamental political categories of modernity were founded on the idea that we could improve on nature, that we could exert a decisive victory over its excesses and claim unlimited access to earthly resources. In this way, modern

214 pages
Paperback
Political Science / Civil Rights

Summary: For nearly as long as there have been electoral districts in America, politicians have gerrymandered those districts. Though the practice has changed over time, the public reaction to it has remained the same: gerrymandering is reviled. There is, of course, good reason for that sentiment. Gerrymandering is intended to maximize the number of legislative seats for one party. As such, it is an attempt to gain what appears to be an unfair advantage in elections. Nevertheless, gerrymandering is not well understood by most people and this lack of understanding leads to a false sense that there are easy solutions to this complex problem.

Philosophy / Political

Summary: Leo Strauss's lifelong intellectual mission was to recover 'classical rationalism', a pursuit that has made him a controversial figure to this day. While his critics see him as responsible for a troubling anti-democratic strain in modern politics, others argue that his thought is in fact the best defence of responsible democracy.

Neil Robertson's new introduction to Strauss aims to transcend these divides and present a non-partisan account of his thought. He shows how Strauss' intellectual formation in Weimar Germany and flight from Nazism led him to develop a critique of modernity that tended to support a conservative politics, while embracing a radical sense of what

Paperback

Philosophy / Political

Summary: This first volume in a new trilogy of books by Antonio Negri examines and develops the Italian tradition of radical Marxist thought known as operaismo or 'autonomist Marxism' – the tradition to which Negri himself adheres and in which he is a leading figure.

The tradition of operaismo emphasizes the role of the worker in capitalism and the primacy of class struggle. Within this framework, Negri's key contribution has been to theorize the transition from the 'mass worker' to the 'social worker' – that is, to broaden the concept of living labour and liberate it from the theoretical cages that locked it into the factory. It was only by moving beyond the ideology and political practice ...

Political Science / World / Middle Eastern

Summary: Heralded as the greatest living Arab poet, Syrian-born Adonis is also a staunch critic of violence and despotism in the Islamic world. In this book Adonis explores the nature of political power in Islam by focusing on the figure of the prophet Mohammed as both a political and a mythical leader. In conversation with Houria Abdelouahed, he examines the Qu'ranic intervention in establishing the prophet's power, especially when the text is read based on faith and not reason. The authors discuss the historical developments before and after the prophet's death which established the power of the Caliph or the leader as absolute.

The second part of the book examines the consequences of

\$19.95 USD

158 pages

Paperback

Philosophy / Political

Summary: Socialism has made a comeback, particularly among the young. Rising generations, however, are unlikely to embrace socialism if it ignores their yearning for individual autonomy. So why should 'soloists' embrace socialism?

William Edmundson argues in this highly original new book that there are, in fact, good reasons for even the most resolute of individualists to embrace socialism. Political equality is precarious in an economy where the means of production – which today include not only the highway system and the currency and the power grid, and so on, but also platforms and networks like Amazon, Facebook, and Google – are privately owned. Socialism is therefore essential

Paperback

Political Science / Intelligence & Espionage

Summary: Over the last two decades, warfare has migrated into cities. From Mosul to Mumbai, Aleppo to Marawi, the major military battles of our time have taken place in densely populated urban areas. Why has this happened? What are the defining characteristics and the military and political implications of urban warfare today?

Leading sociologist Anthony King answers these critical questions through close analysis of recent urban battles and their historical antecedents. Exploring the changing typography and evolving tactics of the urban battlescape, he shows that whilst some methods used in urban battle are not new, operations in cities have become highly distinctive.

Pub Date: 9/7/21
\$22.95 USD
138 pages
Paperback
Psychology / Movements / Psychoanalysis

Summary: Although the term 'jouissance' is common currency in psychoanalysis today, how much does it really tell us? While often taken to designate a fusion of sexuality, suffering and satisfaction, the term has fallen into a purely descriptive use that closes down more questions than it opens up. Although assumed to explain the coalescence of pleasure and pain, it tends to cover a range of quite different issues that should be distinguished rather than conflated.

By returning to some of its sources in Freud and elaborations in Lacan, this essay hopes to stimulate a debate around the relations of pleasure to pain, autoerotism, the links of satisfaction to arousal, the effects of repression, a...

Summary: Support your growing family without losing professional ground—a proven approach

The Parental Leave Playbook helps parents take control of their leave and make the most of what's considered a career timeout, but is actually a vital "time-in" for your life. If you're an expecting or new parent concerned about how your leave and return plans will affect your visibility, candidacy for promotion, work relationships, and performance (not to mention your identity and home life), this book will guide you into the smoothest transition possible. Most importantly, this book will help you as you grow and strengthen yourself and your family while remaining a professional.

Understanding the Bible as a Scripture in History, Culture, and Religion

James W. Watts
9781119730378, 1119730376
Pub Date: 5/3/21
\$49.95 USD
368 pages
Paperback
Religion / Biblical Studies / Bible Study Guides

Summary: A cutting-edge introduction to how the Bible functions as a scripture, and how it came to be that way

Understanding the Bible as A Scripture in History, Culture, and Religion provides a unique introduction to the Bible. The author, James W. Watts—a noted expert on biblical rhetoric and the ritualization of books—describes how Jews and Christians ritualize scripture by interpreting it, by expressing it in recitations, music, and art, and by venerating the physical scroll and book. Rather than just focusing on questions of how and when the books of the Bible were composed, edited, and canonized as scripture, the author

Free-Range Kids : How Parents and Teachers Can Let Go and Let Grow (2nd Edition)

Lenore Skenazy
9781119782148, 1119782147
Pub Date: 6/16/21
\$18.95 USD
288 pages
Paperback
Family & Relationships / Parenting

Summary: Learn to raise independent, can-do kids with a new edition of the book that started a movement

In the newly revised and expanded Second Edition of *Free-Range Kids*, New York columnist-turned-movement leader Lenore Skenazy delivers a compelling and entertaining look at how we got so worried about everything our kids do, see, eat, read, wear, watch and lick -- and how to bid a whole lot of that anxiety goodbye. With real-world examples, advice, and a gimlet-eyed look at the way our culture forces fear down our throats, Skenazy describes how parents and educators can step back so kids step up. Positive change is

Lonely Less : How to Connect with Others, Make Friends and Feel Less Lonely

Gill Hasson
9780857089045, 0857089048
Pub Date: 7/19/21
\$14.99 USD
256 pages
Paperback
Self-Help

Summary: Divorce, bereavement, illness, disability, discrimination and unemployment are common causes of loneliness. And although moving to a new area, getting a new job or having a baby can be exciting and positive; people often find that new experiences can leave them feeling lonely.

For some people however, feelings of loneliness are constant and appear unrelated to external events like divorce, bereavement or becoming a parent. Whatever the circumstances, the common theme is a feeling of being disconnected.

Social Policy : A Critical and Intersectional Analysis

Fiona Williams
9781509540396, 1509540393
Pub Date: 8/16/21
\$28.95 USD
248 pages
Paperback
Political Science / Public Policy / Social Policy

Summary: Welfare states face profound challenges. Widening economic and social inequalities have been intensified by austerity politics, sharpened by the rise in ethno-nationalism and exposed by the COVID-19 pandemic. At the same time, recent decades have seen a resurgence of social justice activism at the local and transnational level. Yet the transformative power of feminist, anti-racist and post/decolonial thinking has become relatively marginal to core social policy theory, while other critical approaches – around disability, sexuality, migration, age and the environment – have only selectively found recognition.

This book provides a much-needed new analysis of this

**Asian America (2nd Edition)**

Pawan Dhingra, Robyn Magalit Rodriguez
9781509534296, 1509534296
Pub Date: 8/2/21
\$26.95 USD
368 pages
Paperback
Social Science / Demography

Summary: Asian Americans are the fastest growing minority population in the country. Moreover, they provide a unique lens on the wider experiences of immigrants and minorities in the United States, both historically and today. Pawan Dhingra and Robyn Magalit Rodriguez's acclaimed introduction to understanding this diverse group is here updated in a thoroughly revised new edition. Incorporating cutting-edge thinking and discussion of the latest current events, the authors critically examine key topics in the Asian American experience, including education and work, family and culture, media and politics, and social hierarchies of race, gender, and sexuality.

**Colonialism and Modern Social Theory**

Gurminder K. Bhambra, John Holmwood
9781509541300, 1509541306
Pub Date: 6/14/21
\$26.95 USD
272 pages
Paperback
Social Science / Sociology

Summary: Modern society emerged in the context of European colonialism and empire. So, too, did a distinctively modern social theory, laying the basis for most social theorising ever since. Yet colonialism and empire are absent from the conceptual understandings of modern society, which are organised instead around ideas of nation state and capitalist economy.

Gurminder K. Bhambra and John Holmwood address this absence by examining the role of colonialism in the development of modern society and the legacies it has bequeathed. Beginning with a consideration of the role of colonialism and empire in the formation of social theory from

Concise Reader in Sociological Theory : Theorists, Concepts, and Current Applications

Michele Dillon
9781119536185, 1119536189
Pub Date: 6/21/21
\$44.95 USD
336 pages
Paperback
Social Science / Sociology

Summary: Essential writings from classical and contemporary sociological theorists engagingly introduced and brought to life for students

This *Concise Reader in Sociological Theory* contains excerpts from the writings of a wide range of key theorists who represent the dynamic breadth of classical and contemporary, macro- and micro-sociological theory. The selected writings elaborate on the core concepts and arguments of sociological theory, and, along with the commentary, explore topics that resonate today such as: crisis and change, institutions and networks, power and inequality, race, gender, difference, and much more.

Pub Date: 8/2/21
\$26.95 USD
280 pages
Paperback
Social Science / Sociology

Summary: The sociological imagination and the artistic imagination have been historically intertwined, at once reciprocal and conflicting, complementary and tensional. This connection is nowhere more apparent than in the work of Zygmunt Bauman. His conception and practice of sociology was always infused with a literary and artistic imagination. He wrote extensively on the relationship between sociology and the arts, and especially on sociology and literature; he frequently drew on literary writers in his exploration and elucidation of sociological problems; and he was an avid and passionate consumer and practitioner of art, especially film and photography.

Deep Adaptation : Navigating the Realities of Climate Chaos

Jem Bendell, Rupert Read

9781509546848, 1509546847

Pub Date: 6/28/21

\$19.95 USD

224 pages

Paperback

Political Science / Public Policy / Environmental Policy

Summary: This is the first book to show how professionals across different sectors are beginning to incorporate the acceptance of likely or unfolding societal breakdown into their work and lives. Deep Adaptation refers to the personal and collective changes that might help us to prepare for – and live with – a climate-influenced breakdown or collapse of our societies. It is a framework for responding to the terrifying realisation of increasing and irrevocable disruption, by committing ourselves to reducing suffering while saving more of society and the natural world.

The contributors to this book come from diverse fields including philosophy, psychology, education, leadership,

Dread : Facing Futureless Futures

David Theo Goldberg

9781509544455, 1509544453

Pub Date: 7/6/21

\$22.95 USD

172 pages

Paperback

Social Science / Sociology

Summary: A pervasive sense has taken hold that any and all of us are under suspicion and surveillance, walking on a tightrope, a step away from erasure of rights or security. Nothing new for many long-targeted populations, it is now surfacing as a broad social sensibility, ramped up by environmental crisis and pandemic wreckage. We have come to live in proliferating dread, even of dread itself.

In this brilliant analysis of the nature, origins, and implications of this gnawing feeling, David Theo Goldberg exposes tracking-capitalism as the operating system at the root of dread. In contrast to surveillance, which requires labor-intensive analysis of people's actions and

Pub Date: 8/30/21

\$26.95 USD

240 pages

Paperback

Social Science / Sociology / Marriage & Family

Summary: Where do we find intimacy today? Are our interactions with acquaintances and strangers, particularly online, a sign of deepening, widespread intimacy? Or are our personal relationships becoming increasingly empty, structured by selfish individualism?

In this second edition of her landmark book, Lynn Jamieson provides an updated exploration of the many types of intimate relationships that are formed in modern societies: families, kinship, friendships, parent-child relationships, sexual relationships and couple relationships. Examining new evidence, the book investigates the nature of such relationships across societies and explicitly questions

Sustainable Futures : An Agenda for Action

Raphael Kaplinsky
9781509547838, 1509547835
Pub Date: 8/23/21
\$26.95 USD
264 pages
Paperback
Social Science / Sociology

Summary:

Long before the pandemic, economies across the world were in trouble, with growth slowing across the board. This downturn further exacerbated growing inequality and social exclusion, and coincided with rising political dissatisfaction with ruling elites which has fuelled the rise of populism. Add to this the alarming environmental emergency and few could deny we live in a time of multiple sustainability crises.

While this conclusion can lead to despair, in this broad-ranging book leading development policy analyst Raphael Kaplinsky argues that the future is not necessarily bleak. Interrogating the causes and nature of the systemic crises

\$24.95 USD
244 pages
Paperback
Social Science / Sociology

Summary: We live in a time of great uncertainty about the future. Those heady days of the late 20th century, when the end of the Cold War seemed to be ushering in a new and more optimistic age, now seem like a distant memory. During the last couple of decades we've been battered by one crisis after another and the idea that humanity might be on a progressive path to a better future seems like a grand illusion.

And yet it is only now, as disillusioned citizens try to make sense of the new political landscape, that the real nature of this reversal is beginning to reveal itself: contemporary societies have undergone a profound structural shift over the

\$24.95 USD
248 pages
Paperback
Social Science / Sociology / Urban

Summary: Urban planning is not just about applying a suite of systematic principles or plotting out pragmatic designs to satisfy the briefs of private developers or public bodies. Planning is also an activity of imagination, with a stock of wisdom and an array of useful methods for making decisions and getting things done.

This critical introduction uncovers and celebrates this imagination and its creative potential. Nicholas A. Phelps explores the key themes and driving questions in the circulation of planning ideas and methods over time and across spaces, identifying the contrasts and commonalities between urban planning systems and cultures. He argues

Pub Date: 9/7/21
\$19.95 USD
176 pages
Paperback
Political Science / Public Policy / Environmental Policy

Summary: Given the escalating and existential nature of our current environmental crises, environmental sociology has never mattered more. We now face global environmental threats, such as climate change and biodiversity loss, as well as local threats, such as pollution and household toxins. The complex interaction of such pervasive problems demands an understanding of the social nature of environmental impacts, the underlying drivers of these impacts, and the range of possible solutions we must examine and pursue. Environmental sociologists continue to make indispensable contributions to this crucial task.

This compact book introduces environmental sociology as a

**Why Are There Still Creationists? : Human Evolution and the Ancestors**

Jonathan Marks
9781509547470, 1509547479
Pub Date: 7/13/21
\$22.95 USD
112 pages
Paperback
Science / Philosophy & Social Aspects

Summary:

The evidence for the ancestry of the human species among the apes is overwhelming, accepted by non-religious and religious people across the world. But the facts are never "just" facts. Human evolution has been a value-laden scientific theory since its very beginning and anthropology makes clear that the ancestors are always sacred. They may be ghosts, or corpses, or fossils, or a naked couple in a garden, but the idea that you are part of a lineage is a powerful and universal one, full of symbolic energy. When it comes to personhood and ancestry, meaning and morals are at play and they most certainly transcend science and its quest for maximum accuracy.
