DENTISTRY

DENTAL HYGIENE & THERAPY

Dental Implants for Hygienists and Therapists

Ulpee R. Darbar

Provides essential information on the fundamental principles of tooth replacement with dental implants for dental hygienists and therapists. The book offers robust guidance on the assessment of peri-implant tissues in health and in disease, an evidence-based approach to their management, and instruction on when a referral should be made.

FOOD PROCESSING, PRODUCTION & MANUFACTURE

3D Printing of Foods

C. Anandharamakrishnan, Jeyan A Moses & E. T Anukiruthika

A team of distinguished researchers delivers a comprehensive and eye-opening exploration of the rapidly developing field of 3D food printing. In the book, the authors offer readers an examination of "food printability," the foundation of 3D food printing. They discuss the enormous research gap in the subject and envisage a robust discipline in which food processing techniques, combined with 3D food printing, gives rise to a range of synergistic applications.
