Love and Communication

Paddy Scannell

Love and Communication is an intriguing philosophical and religious inquiry into the meaning of "talk" – and ultimately the meaning of "being human."

Taking an historical approach, Paddy Scannell argues that the fundamental media of communication are (and always have been) talk and writing. Far from being made redundant by twentieth-century new media (radio and television), these old media laid the foundation for today's technologies (AI and algorithms, for instance). Emphasizing these linkages, ...

Information at War: Journalism, Disinformation, and Modern Warfare

Philip Seib

A war's outcome is determined by more than bullets and bombs. In our digital age, the proliferation of new media venues has magnified the importance of information – whether its content is true or purposely false – in battling an enemy and defending the public.

In this book, Philip Seib, one of the world's leading experts on media and war, offers a probing analysis of the role of information in warfare from the Second World War to the present day and beyond. He focuses on some of the thorniest i...

The Journalism Manifesto

Barbie Zelizer, Pablo J. Boczkowski, C. W. Anderson

Drawing on the collaborative expertise of three senior scholars, *The Journalism Manifesto* makes a powerful case for why journalism has become outdated and why it is in need of a long-overdue transformation.

Focusing on the relevance of elites, norms and audiences, Zelizer, Boczkowski and Anderson reveal how these previously integral components of journalism have become outdated: Elites, the sources from which journalists draw much of their information and around whom they orient their coverage, h...

The New Laws of Love: Online Dating and the Privatization of Intimacy

Marie Bergström

Online dating has become a widespread feature of modern social life. In less than two decades, seeking partners through commercial intermediaries went from being a marginal and stigmatized practice to being a common activity. How can we explain this rapid change and what does it tell us about the changing nature of love and sexuality?

In contrast to those who praise online dating as a democratization of love and those who condemn it as a commodification of intimacy, this book tells a different st...

Youth on Screen: Representing Young People in Film and Television

David Buckingham

Right from the origins of cinema, countless films and television dramas have offered sensational and seductive representations of young people's lives. Youth is typically associated with energy, idealism and physical beauty, but it is often represented as both troubled and troubling. These representations are almost always created by adults, implicitly reflecting an adult perspective on how young people 'come of age'.

Youth on Screen provides a historical account of representations of youth in Br...

Regulating Platforms

Terry Flew

We once thought of cyberspace as a borderless world. As the internet has become increasingly platformized, with a small number of technology giants that dominate the global digital economy, concerns about information monopolies, hateful online content, and the impact on media content creators and creative industries have become more marked. Consequently governments, politicians, and civil society are questioning how digital platforms can or should be regulated.

In this up-to-the-minute study, Ter...

Communication and Economic Life

Liz Moor

When we talk about media and the economy, 'the economy' is usually understood as the macro economy or GDP, while 'the media' usually refers to television and print news, or the digital output of mainstream news providers. But communication about money and the economy in everyday life is far more wide-ranging than this. It is also changing: opportunities to discuss economic matters – whether public or personal – have proliferated online, while new payment systems and shopping platforms embed econ...

Devolution and Autonomy in Education: Subjects and Objects of Devolution

Pablo Buznic-Bourgeacq

Allowing learners to take some responsibility may seem obvious yet what is actually afforded to them, and how this process works, remains difficult to grasp. It is therefore essential to study the real objects of devolution and the roles played by the subjects involved. Devolution and Autonomy in Education questions the concept of devolution, introduced into the field of education in the 1980s from disciplinary didactics, and described in Guy Brousseau's Theory of Didactical Situations in Mathem...

Objects to Learn about and Objects for Learning 1: Which Teaching Practices for Which Issues?

Joel Bisault, Roselyne Le Bourgeois, Jean-Francois Themines, Mickael Le Mentec, Celine Chauvet-Chanoine

Resulting from a conference that took place in Amiens, France, in June 2019, this book examines the place and role of objects centered in teaching practices from kindergarten to university, both in the context of France and elsewhere. These "objects for learning" are considered in their physicality as productions, work or signs that are used for learning. They become "objects to learn about" when the object itself is the learning objective.

Bridge Builders: Bringing People Together in a Polarized Age

Nathan Bomey

In these turbulent times, defined by ideological chasms, clashes over social justice, and a pandemic intersecting with misinformation, Americans seem hopelessly divided along fault lines of politics, race, religion, class, and culture. Yet not everyone is accepting the status quo.

In *Bridge Builders: Bringing People Together in a Polarized Age*, journalist Nathan Bomey paints a forensic portrait of Americans who are spanning gaping divides between people of difference. From clergy fighting racism ...

China's Leaders: From Mao to Now

David Shambaugh

Since the founding of the People's Republic of China over 70 years ago, five paramount leaders have shaped the fates and fortunes of the nation and the ruling Chinese Communist Party: Mao Zedong, Deng Xiaoping, Jiang Zemin, Hu Jintao, and Xi Jinping. Under their leaderships, China has undergone an extraordinary transformation from an undeveloped and insular country to a comprehensive world power.

In this definitive study, renowned Sinologist David Shambaugh offers a refreshing account of China's ...

My Secret Brexit Diary: A Glorious Illusion

Michel Barnier, Robin Mackay

In June 2016, the people of the United Kingdom voted to leave the European Union. As the EU's chief negotiator, for four years Michel Barnier had a seat at the table as the two sides thrashed out what 'Brexit' would really mean. The result would change Britain and Europe forever.

During the 1600 days of complex and often acrimonious negotiations, Michel Barnier kept a secret diary. He recorded his private hopes and fears, and gave a blow-by-blow account as the negotiations oscillated between cons...

The Chancellors: Steering the British Economy in Crisis Times

Howard Davies

When the Treasury lost control of interest rates to the Bank of England in 1997, its status looked under threat. However, it quickly reasserted its power by dominating policymaking across Whitehall and diminishing other ministries in the process. It also successfully fought off attempts by Prime Ministers, from Blair to Johnson, to cut it down to size.

In this fascinating insider account, based on in-depth interviews with the Chancellors and key senior officials, Howard Davies shows how the past ...

THE LAST OF THE TORIES

The Last of the Tories Political Selections from the Diaries of the Fourth Duke of Newcastle-under-Lyne, 1839 - 1850

Richard A. Gaunt

The diaries of the fourth duke of Newcastle-under-Lyne (1785–1851) provide an unrivalled insight into political events during the late-1830s and 1840s, from the perspective of a prominent Tory critic.

- At a time of Conservative revival under Sir Robert Peel, Newcastle used his position in the house of lords, his family's historic electoral influence, and personal contacts with politicians and writers, to defend the status quo

Common Good Constitutionalism

Adrian Vermeule

The way that Americans understand their Constitution and wider legal tradition has been dominated in recent decades by two exhausted approaches: the originalism of conservatives and the "living constitutionalism" of progressives. Is it time to look for an alternative?

Adrian Vermeule argues that the alternative has been there, buried in the American legal tradition, all along. He shows that US law was, from the founding, subsumed within the broad framework of the classical legal tradition, which ...

David Lehmann

After the Decolonial examines the sources of Latin American decolonial thought, its reading of precursors like Fanon and Levinas and its historical interpretations. In extended treatments of the anthropology of ethnicity, law and religion and of the region's modern culture, Lehmann sets out the bases of a more grounded interpretation, drawing inspiration from Mexico, Brazil, Bolivia and Chile, and from a lifelong engagement with issues of development, religion and race.

The United States vs. China: The Quest for Global Economic Leadership

C. Fred Bergsten

After leading the world economy for a century, the United States faces the first real challenge to its supremacy in the rise of China. Is economic (or broader) conflict, well beyond the trade and technology war that has already erupted, inevitable between the world's two superpowers? Will their clash produce a new economic leadership vacuum akin to the 1930s, when Great Britain was unable to play its traditional leadership role and a rising United States was unwilling to step in to save the glob...

The Temptation of the Wall: Five Short Lessons on Civil Life

Massimo Recalcati, Alice Kilgariff

Modern social and political life is characterized not only by a passion for freedom and a desire for human contact, but also by the urge to shut down, to refuse freedom and the responsibility that goes with it, to barter it away in return for our security: this is the temptation of the wall, a temptation with which every modern society has to come to terms.

Drawing on his experience as a psychoanalyst, Recalcati shows that the temptation of the wall is rooted in a deep psychological inclination: ...

His aim is not to locate the seeds of ecological thought in the history of political ideas as others have done, but rather to show that all political ideas, whether or not they endorse ecological ideals, are informed by a certain conception of our relationship to the Earth and to our environment.

The fundamental political categories of modernity were founded on the idea ...

Normal Now: Individualism as Conformity

Mark G. E. Kelly

This is a book about what we consider normal. It details how the very concept of normality emerged in the modern era, and how it has changed over the centuries.

By the mid-twentieth century, the expansion of norms across various areas of human endeavour generated a governing normative order in Western societies. Normality was defined as conformity with a narrow model of conventional human behaviour. However, this model has since been displaced by an anti-conformism, in which normality is defined ...

Power rarely works by force alone: it also rules by winning hearts and minds. States, classes, and social groups all seek political dominance by exerting political, ideological, or cultural leadership over others. This idea – hegemony – is a subtle, complex one, which is too often applied crudely.

In this succinct introduction, political theorist James Martin skilfully examines these nuances and shines a new light on hegemony. He introduces its component ideas and critically surveys the most infl...

This first volume in a new trilogy of books by Antonio Negri examines and develops the Italian tradition of radical Marxist thought known as operaismo or 'autonomist Marxism' – the tradition to which Negri himself adheres and in which he is a leading figure.

The tradition of operaismo emphasizes the role of the worker in capitalism and the primacy of class struggle. Within this framework, Negri's key contribution has been to theorize the transition from the 'mass worker' to the 'social worker' ...

Today, deliberative democracy is the most widely discussed theory of democracy. Obedience is Freedom

Jacob Phillips

The virtue of obedience is seen as outdated today, if not downright toxic – and yet, are we any freer than our forebears?

In this provocative work, Jacob Phillips argues not. Many feel unable to speak freely, their opinions policed by the implicit or explicit threat of coercion. Impending ecological disaster is the ultimate threat to our freedoms and wellbeing, and living in a disenchanted cosmos leaves people enslaved to nihilistic whim. The Populist Century: History, Theory, Critique

Populism is an expression of anger; its appeal stems from being presented as the solution to disorder in our times. The vision of democracy, society, and the economy it offers is coherent and attractive.

At a time when the words and slogans of the left have lost much of their power to inspire, Pierre Rosanvallon takes populism for what it is: the rising ideology of the twenty-first century. Dementia and Memory: Introduction for Professionals in Health and Human Services

Farrer

Addresses the psychology and treatment of diseases that affect the memory of an aging population

The aging population is growing, with a significant portion of the population over the age of 65. Epidemiological research suggests that rates of age-related conditions like Alzheimer's disease will increase. Older individuals and their families face a host of problems related to the diagnosis, treatment, and psychological management of these conditions. There is a growing demand for healthcare person...

Child Psychology: Developments in Knowledge and Theoretical Models

Jean-Pascal Assailly

This book reviews the current state of knowledge in the field of child and adolescent psychology. It distinguishes between what is new in child psychology, given that certain phenomena did not previously exist in a significant way in the lives of young people (such as homoparentality, attacks, cyber-bullying or Covid-19). It also examines new studies of subjects that already exist and have done so for a long time (intelligence, the mother-child relationship, etc.), but where significant theoreti...

Jouissance: Sexuality, Suffering and Satisfaction

Darian Leader

Although the term 'jouissance' is common currency in psychoanalysis today, how much does it really tell us? While often taken to designate a fusion of sexuality, suffering and satisfaction, the term has fallen into a purely descriptive use that does down more questions than it opens up. Although assumed to explain the coalescence of pleasure and pain, it tends to cover a range of quite different issues that should be distinguished rather than conflated.

By returning to some of the sources of th...

Social Policy: A Critical and Intersectional Analysis

Fiona Williams

Welfare states face profound challenges. Widening economic and social inequalities have been intensified by austerity politics, sharpened by the rise in ethno-nationalism and exposed by the COVID-19 pandemic. At the same time, recent decades have seen a resurgence of social justice activism at both the local and the transnational level. Yet the transformative power of feminist, anti-racist and postcolonial/decolonial thinking has become relatively marginal to core social policy theory, while oth...

Given the escalating and existential nature of our current environmental crises, environmental sociology has never mattered more. We now face global environmental threats, such as climate change and biodiversity loss, as well as local threats, such as pollution and household toxins. The complex interactions of such pervasive problems demand an understanding of the social nature of environmental impacts, the underlying drivers of these impacts, and the range of possible solutions.

Environmental s...

Culture and Art: Selected Writings, Volume 1

Zygmunt Bauman, Dariusz Brzezinski, Thomas C. Campbell, Mark Davis, Jack Palmer, Katarzyna Bartoszynska

The sociological imagination and the artistic imagination have been historically intertwined, at once reciprocal and conflicting, complementary and tensional. This connection is nowhere more apparent than in the work of Zygmunt Bauman. His conception and practice of sociology were always infused with a literary and artistic sensibility. He wrote extensively on the relationship between sociology and the arts, and especially on sociology and literature; he frequently drew on literary writers in...

Skin

Sergio del Molino, Thomas Bunstead

Skin is the border of our body and, as such, it is that through which we relate to others but also what separates us from them. Through skin, we speak: when we display it, when we tan it, when we tattoo it, or when we mute it by covering it with clothes. Skin exhibits social relationships, displays power and the effects of power, explains many things about who we are, how others perceive us and how we exist in the world. And when it gets sick, it turns us into monsters.

In *Skin*, Sergio del Molino...

After Lockdown: A Metamorphosis

Bruno Latour, Julie Rose

After the harrowing experience of the pandemic and lockdown, both states and individuals have been searching for ways to exit the crisis, many hoping to return as soon as possible to 'the world as it was before the pandemic'. But there is another way to learn the lessons of this ordeal: as inhabitants of the earth, we may not be able to exit lockdown so easily after all, since the global health crisis is embedded in another larger and more serious crisis – that brought about by the New Climate ...

The Sociology of Slavery: Black Society in Jamaica, 1655-1838

Orlando Patterson

Orlando Patterson's classic study of slavery in Jamaica reveals slavery for what it was: a highly repressive and destructive system of human exploitation, which disregarded and distorted almost all of the basic prerequisites of normal social life. What distinguishes Patterson's account is his detailed description of the lives and culture of slaves under this repressive regime. He analyses the conditions of slave life and work on the plantations, the psychological life of slaves and the patterns ...

The End of Illusions: Politics, Economy, and Culture in Late Modernity

Andreas Reckwitz, Valentine A. Pakis

We live in a time of great uncertainty about the future. Those heady days of the late twentieth century, when the end of the Cold War seemed to be ushering in a new and more optimistic age, now seem like a distant memory. During the last couple of decades, we've been battered by one crisis after another and the idea that humanity is on a progressive path to a better future seems like an illusion.

It is only now that we can see clearly the real scope and structure of the profound shifts that West...

Mafia Politics

Marco Santoro

This ground-breaking book offers a deep and original analysis of the Mafia – in particular Cosa Nostra – as a distinct form of politics. Marco Santoro breaks with criminal and economic approaches which see the Mafia as an industry of private protection and rationally calculating wealth accumulation. Instead he argues that it represents an alternative way of organizing political relations, the exercise of power, and the struggle for prestige. Nor is this a distortion or failure of the modern West...

Multiracism: Rethinking Racism in Global Context

Alastair Bonnett

Racism is a world problem. From Morocco to China, Brazil to Indonesia, racism is being debated and contested. *Multiracism* broadens the horizon on this global challenge, showing that racism has a diverse history with multiple roots and routes.

Drawing on examples of racism from across the globe, with particular focus on cases from Asia and Africa, Alastair Bonnett rethinks the origins of racism and the connections between racism and modernity. Arguing that plural modernities are interwoven with pl...

The notion of 'immigrant integration' is used everywhere – by politicians, policy makers, journalists and researchers – as an all-encompassing framework for rebuilding 'unity from diversity' after large-scale immigration. Promising a progressive middle way between backward-looking ideas of assimilation and the alleged fragmentation of multiculturalism, 'integration' has become the default concept for states scrambling to deal with global refugee management and the persistence of racial disadvant...

The Racialized Social System: Critical Race Theory as Social Theory

Ali Meghji

Far from its origins in US legal studies in the 1980s, critical race theory has grown to become a leading approach to the analysis of racial inequality around the world. It has courted much controversy along the way, often misunderstood and poorly defined. So what precisely is critical race theory and what makes it different from other theories of race, racialization and racism?

In this incisive book, Ali Meghji defines the contours of critical race theory through the notion of the 'racialized so...

Their voices offer a wide range of experiences that complicate dominant national narratives about economic struggles.

The New Gender Paradox: Fragmentation and Persistence of the Binary

Judith Lorber

Today, in Western countries, we are seeing both the fragmentation of the gender binary (the division of the social world into two and only two genders) and its persistence. Multiple genders, gender-neutral pronouns and bathrooms, X designations, and other manifestations of degendering are becoming common, and yet the two-gender structure of our social world persists. Undereath the persistence of the binary and its discriminatory norms and expectations lurks the continuance of men's power and pr...

Louise Perry

Ditching the stuffy hang-ups and benighted sexual traditionalism of the past is an unambiguously positive thing. The sexual revolution has liberated us to enjoy a heady mixture of erotic freedom and personal autonomy. Right?

Wrong, argues Louise Perry in her provocative new book. Although it would be neither possible nor desirable to turn the clock back to a world of pre-60s sexual mores, she argues that the amoral libertinism and callous disenchantment of liberal feminism and our contemporary hy...

Colonialism and Modern Social Theory

Gurinder K. Bhambra, John Holmwood

Modern society emerged in the context of European colonialism and empire. So, too, did a distinctively modern social theory, laying the basis for most social theorising ever since. Yet colonialism and empire are absent from the conceptual understandings of modern society, which are organised instead around ideas of nation state and capitalist economy.

Gurinder K. Bhambra and John Holmwood address this absence by examining the role of colonialism in the development of modern society and the legac...

Dread: Facing Futureless Futures

David Theo Goldberg

A pervasive sense has taken hold that any and all of us are under suspicion and surveillance, walking on a tightrope, a step away from erasure of rights or security. Nothing new for many long-targeted populations, it is now surfacing as a broad social sensibility, ramped up by environmental crisis and pandemic wreckage. We have come to live in proliferating dread, even of dread itself.

In this brilliant analysis of the nature, origins, and implications of this gnawing feeling, David Theo Goldberg...

Western culture has endlessly represented the ways in which love miraculously erupts in people's lives, the mythical moment in which one knows someone is destined for us, the feverish waiting for a phone call or an email, the thrill that runs down our spine at the mere thought of him or her. Yet, a culture that has so much to say about love is virtually silent on the no less mysterious moments when we avoid falling in love, where we fall out of love, when the one who kept us awake at night now I...

Dana Kaplan, Eva Illouz

This book does to sex what other sociologists did to culture: it shows that sex, no longer defined by religion, now plays a role in the economy and can yield tangible benefits in the realms of money, status, and occupation. How do people accumulate sexual capital, and what are the returns for investing money, time, knowledge, and energy in establishing and enhancing our sexual selves?

The Logic of Compressed Modernity

Chang Kyung-Sup

Most theories of modernity are based, explicitly or implicitly, on the development of Western societies since the late medieval period, but these theories are of limited value for understanding the development of societies in Asia and other parts of the world, where the process of modernization took place under different circumstances and often in a rapid and highly compressed fashion – not over centuries but in decades. Asian societies have been propelled into modernity too, but theirs is a co...

We live in a mutilated world and our humanity seems irrevocably damaged. Many critics suggest we have reached the end of humanity. In this challenging book, Ken Plummer suggests that such claims may be premature; instead, what we need is a new transformative understanding of humanity.

Long before the pandemic, economies across the world were in trouble, with growth slowing across the board. This downturn coincided with growing inequality and social exclusion. Rising political dissatisfaction with ruling elites fuelled the rise of populism. Care and Capitalism

Kathleen Lynch

The logics and ethics of neoliberal capitalism dominate public discourses and politics in the early twenty-first century. They morally endorse and institutionalize forms of competitive self-interest that jettison social justice values, and are deeply antithetical to love, care and solidarity.

But capitalism is neither invincible nor inevitable. While people are self-interested, they are not purely self-interested: they are bound affectively and morally to others, even to unknown others. The cares...

Why Are There Still Creationists?: Human Evolution and the Ancestors

Jonathan Marks

The evidence for the ancestry of the human species among the apes is overwhelming. But the facts are never "just" facts. Human evolution has always been a value-laden scientific theory and, as anthropology makes clear, the ancestors are always sacred. They may be ghosts, or corpses, or fossils, or a naked couple in a garden, but the idea that you are part of a lineage is a powerful and universal one. Meaning and morals are at play, which most certainly transcend science and its quest for maximum...

At century's close, American social scientists, policy analysts, philanthropists and politicians became obsessed with a fearsome and mysterious new group said to be ravaging the ghetto: the urban "underclass." Soon the scarecrow category and its demonic imagery were exported to the United Kingdom and continental Europe and agitated the international study of exclusion in the postindustrial metropolis.
