Mergers & Acquisitions For Dummies (2nd Edition)

Bill R. Snow

Explore M&As, in simple terms

Mergers & Acquisitions For Dummies gives you useful techniques and real-world advice for making these business transactions a success, going beyond case studies to include international laws and regulations, environmental issues, and—most importantly—practical instructions you can really use. In plain English terms that anyone can understand, this book discusses the entire M&A process, including different types of transactions and structures, raising funds, partnering, identifying targets, business valuation, doing due diligence, closing the

Rewired for Digital: The McKinsey Guide to Outcompeting with Technology

Eric Lamarre, Kate Smaje, Rodney Zemmel

Digital transform is hard. It is tempting to point to the "usual suspects" as the reasons for these shortfalls: cumbersome IT estates, poor data, lack of talent, among others. These issues are real, but they also tend to mask more fundamental issues that are the real culprits behind stalled transformations, including:

- Pursuing changes that are not economically meaningful to the business. It's good to experiment, but companies too often focus on "shiny objects," such as launching a new app, that signal change but don't deliver substantial

The House that Cheese Built: The Unusual Life of the Mexican Immigrant who Defined a Multibillion-Dollar Global Industry

Miguel A. Leal

A quintessential American dream story from a Mexican entrepreneur who shares the tale of building a multi-million dollar business from scratch, complete with both success and failure, and always a vision of hope.

Leal came to the U.S. penniless as a teenager, speaking almost no English; he literally slept in the boiler room of a Wisconsin cheese factory for months before he was caught. Through hard work, grit, and ingenuity Leal would go on to launch his own business. He is widely credited

Daniel Doll-Steinberg, Stuart Leaf

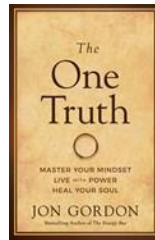

The Tao of Self-Confidence: A Guide to Moving Beyond Trauma and Awakening the Leader Within

Sheena Yap Chan

A guide for Asian women to tap into their confidence, joy, and shine as leaders in today's world

In 2021, women represented 54.3% of the US workforce but only held 35% of senior leadership positions. Of that percentage, only 2.7% of Asian women were seen in management roles. While there have been great leaps for women in the workplace in the last decade, women of color still fall behind. *The Tao of Self-Confidence* book sets a foundation to help Asian Women start being seen as leaders in work and life rather than by our stereotypes. Boundless

Vala Afshar, Henry King

Silos kill companies. They've always slowed companies down and threatened their success but the more connected the world becomes and the greater the rate of change and innovation, the more deadly these silos are becoming. And yet they're everywhere, and that is because our companies are built to be silos or collections of silos, the inheritance of an earlier age when corporations were centers of control, and consumers had no connections, no information, no capabilities. But now, none of those old conditions apply. We need an entirely new mindset and design paradigm for this newly decentralized a...

All Money Is Not Created Equal: How Entrepreneurs can Crack the Code to Getting the Right Funding for their Startup

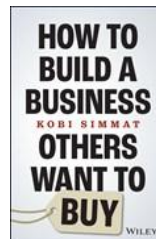

David A Spreng, Patricia m O'Connell

Finance your company's growth without losing your stake in it

Too often, thanks to multiple rounds of equity investment, company founders wind up with only a small fraction of the businesses they start. But this situation isn't inevitable. The intelligent use of a variety of financing options—including debt financing—can help to maintain, or even grow, a founder's stake.

The Equity Mindset: Redefining Work Culture and Designing the Just Spaces We Deserve

Ifeomasinachi Ike

Equity is a Verb journeys, moving the reader via narratives and voice to deepen how we grasp the very live dynamics of normalized institutional oppression, then transporting us to our current landscape, with case studies across industries of what's working-and what's not. Finally, it trains us with new practices, new milestones, new KPIs (Key Performance Indicator). The transformation occurs when the readers make up in their mind that no Black, brown, disabled, queer, immigrant, neurodivergent or othered community member should be left behind. The layering of principles, practices and producti...

Slavery, Capitalism and the Industrial Revolution

Berg

The role of slavery in driving Britain's economic development is often debated but seldom given a central place.

In their remarkable new book, Maxine Berg and Pat Hudson "follow the money" to document in revealing detail the role of slavery in the making of Britain's industrial revolution. Slavery was not just a source of wealth for a narrow circle of slave owners who built grand country houses and filled them with luxuries. The forces set in motion by the slave and plantation trades seeped into

The Missing Billionaires: A Guide to Better Financial Decisions

Victor Haghani, James White

Over the past century, if the wealthiest families had spent a reasonable fraction of their wealth, paid taxes, invested in the stock market, and passed their wealth down to the next generation, there would be tens of thousands of billionaire heirs to generations-old fortunes today. The puzzle of *The Missing Billionaires* is why you cannot find one such billionaire on any current rich list. There are a number of explanations, but this book is focused on one mistake which is of profound importance to all investors: poor risk decisions, both in investing and spending. Many of these families didn't...

Sell More with Attention Hacking: How to Survive the Social Media Jungle

R Kiera

Why do people queue in front of Apple stores all night long — but not with you? And isn't it grotesque that mobile phones are more in demand than, for example, products for wealth accumulation, health and family protection? However, this does not have to be the case. There are tools and strategies that your industry can use to attract customers. This book uses the insurance industry to show how to do it. And it's easy! Because insurers and intermediaries help people in their darkest hours. But despite billions invested in sales and marketing, no one is interested in it.
