The Super Upside Factor: Asymmetric Principles that Will 10X Your Life

Daniel Kang

A practical playbook to maximize luck in life and career

Venture capitalists manage to raise and invest trillions of dollars despite being wrong **most of time** through asymmetric bets – where a few big wins outsize losses by factors of 1,000x.

In *The Super Upside Factor*, Daniel Kang draws on his experience as a venture capitalist at Softbank Vision Fund and a Y Combinator-backed founder to adapt asymmetric principles for personal and professional life. He offers a clear framework for maximizing luck and generating

Digital Impact: The Human Element of AI-Driven Transformation

Steve Lucas

Use technology to connect systems and data to change the world for the better

In *Digital Impact: The Human Element of AI-Driven Transformation*, Steve Lucas, a three-time CEO, discusses how organizations can integrate and automate systems to create incredible outcomes that benefit people. Lucas explains how this becomes possible when businesses solve the ubiquitous problems of digital fragmentation and data complexity, which have become even more pressing with the rise of artificial intelligence.

The Self-Love Mindset: Why Personal Wellbeing is the Ultimate Business Strategy

Lauri-Ann Ainsworth

Find success and create organisational change by focusing on your own happiness and wellbeing

Written by Lauri-Ann Ainsworth, CEO of the Richard Branson Centre of Entrepreneurship Caribbean, the region's foremost business accelerator, *The Self-Love Mindset: Why Personal Wellbeing is the Ultimate Business Strategy* shares a deeply personal journey, revealing how true success—both personal and professional—begins with self-love. Ainsworth believes that people are at the heart of every business. When individuals are empowered to love and care for themselves, that love naturally extends to the

Fact Forward: The Perils of Bad Information and the Promise of a Data-Savvy Society

Dan Gaylin

Solutions to increase trust and empower better decision making in a data-rich world

Fact Forward: The Perils of Bad Information and the Promise of a Data-Savvy Society explores how a growing deluge of data has led to a data-rich world with abundant new opportunities and a precipitous decline in trust due to the problems we face in producing, communicating, and consuming data. This book takes readers on a journey through the data ecosystem, showing how data producers, data consumers, and data disseminators all have a role to play in creating a more data-savvy society.

Marketing: A Sociological Approach

Kevin Mellet

Marketing involves a wide range of professions, activities and tools and it plays an increasingly important role in our lives. But what exactly is marketing and how did it come to assume such importance? Who are the marketing professionals, what exactly do they do and what influence do they have in our economy and society?

Over the last forty years, sociologists have studied marketing and analysed its practices, techniques and consequences, producing a formidable body of knowledge about the nature of marketing and its impact. This book provides a concise account of these contributions and ...

The Power of Cash: Why Using Paper Money is Good for You and Society

Jay L. Zagorsky

Why cash is worth preserving in an increasingly "cashless" society

Over the last thirty years, we have witnessed a rapid transformation in the way that people pay for goods and services. Where we used to use cash for all but our largest purchases, many people now prefer credit cards, debit cards, cryptocurrency, and electronic services like Venmo, PayPal, or Alipay. And that's not necessarily a good thing.

In *The Power of Cash: Why Using Paper Money is Good for You and Society*, Professor Jay Zagorsky, former advisor to the Boston Federal Reserve, delivers a startlingly

GUIDE TO THE EYES**

Each of the twelve volumes in *Peate's Body Systems* series is rooted in the belief that a deep and thorough understanding of the human body is essential for providing the highest standard of care. Offering clear, accessible and up-to-date information on different body systems, this series bridges the gap between complex scientific concepts and practical, everyday applications in health and care settings. This series makes for an invaluable resource for

Surviving and Thriving in Midwifery

Sally Pezaro, Karen Maher

A practical, evidence-based approach to psychological and professional well-being for midwives

Midwifery is an essential profession with a life-saving role in perinatal care. However, studies show that midwives experience remarkably high levels of work-related psychological distress, leading to equally high levels of attrition from the profession. If these issues are not addressed, the loss of qualified midwives may seriously impact the profession's ability to fight perinatal and infant mortality worldwide.

Surviving and Thriving in Midwifery offers a practical

American Letters: 1927-1947

Jackson Pollock

Jackson Pollock, the towering American artist who was to revolutionize twentieth-century art with his "dripping" painting technique, grew up between the late 1920s and the late 1940s, the youngest of five boys born in the American West. Though often apart, whether they were traveling for work or for studies, sons and parents kept in close touch through their regular exchange of letters. Their correspondence offers an invaluable insight into the formation of one of America's most influential artists, but it also draws a unique portrait of America itself between two momentous events in its history...

Rock Your Read Aloud: Sparking Curiosity and Confidence in Little Readers

Matthew Hammersley, Melissa Hammersley

Help K-5 students experience the magic of reading by sparking amazement, wonder, and excitement through the art of the read aloud

It is not news to educators that kids have trouble paying attention. The allure and interactivity offered in televisions, tablets, and video games are tough to match. Consequently, reading scores have plummeted and educators say the joy has been sucked out of teaching. *Rock Your Read Aloud* brings back the joy and helps you create a read aloud experience that will have even the most reluctant of K-5 readers begging for just one more

Philosophy

Also a History of Philosophy, Volume 3: Rational Freedom. Traces of the Discourse on Faith and Knowledge

Jürgen Habermas, Ciaran Cronin

In the final volume of his history of philosophy, Jürgen Habermas offers a series of brilliant interpretations of the thinkers who set the agenda for contemporary philosophy. Beginning with masterful readings of Hume and Kant, he traces the genealogy of their postmetaphysical thinking through the main currents of historicism and German Idealism, and the multifarious reactions to Hegel's influential system, culminating in nuanced readings of Marx, Kierkegaard and Peirce. Through his analysis of their work, Habermas demonstrates the interpretive fecundity of the critical

Communicative AI: A Critical Introduction to Large Language Models

Mark Coeckelbergh, David J. Gunkel

Large Language Models (LLMs), like OpenAI's ChatGPT and Google's LaMDA, are not only the most disruptive and controversial technologies of our time, but also offer an unprecedented opportunity to examine human cognition and philosophically question the very nature of language, communication, and intelligence. What is consciousness? What is language? Are LLMs authors? Are LLMs the end of writing as we know it?

In *Communicative AI*, Mark Coeckelbergh and David J. Gunkel offer a critical introduction to LLMs, investigating the philosophical significance of this technology and its

Morality and Responsibility

T. M. Scanlon

T. M. Scanlon is one of the world's leading philosophers, widely known for his contractualist moral theory and his distinctive account of moral responsibility and blame. In these important essays, written between 2001 and 2021, Scanlon reflects on the lines of thinking that led him to these views, considers objections to them, and locates them in relation to the views of others, including Derek Parfit, Harry Frankfurt, Gary Watson, and Christine Korsgaard.

The result will be essential reading for scholars and students in moral philosophy, political philosophy, and the philosophy of law.

The Conservative Party After Brexit: Turmoil and Transformation

Tim Bale

The Conservative Party can lay convincing claim to being the world's most successful political party, not least because it is also one of the most adaptable, often appearing to do and say pretty much whatever it takes to win. But has it now taken things too far?

Since the UK voted to leave the EU back in 2016, the Tories have arguably done more than simply re-shape themselves: rather, they seem to have transformed themselves from a mainstream centre-right party into a counter-intuitive combination of radical right-wing populism, free market fundamentalism, and fiscal

Urban Warfare in the Twenty-First Century (2nd Edition)

Anthony King

War is urbanising. From Mosul to Mumbai, Aleppo to Marawi, the largest and most intense battles of the twenty-first century have taken place in densely populated urban areas. In the Ukraine War, Russian and Ukrainian troops have converged on urban areas, Kyiv, Mariupol, and Bakhmut, to fight brutal attritional sieges. Meanwhile the Battle of Gaza rages.

Through a close analysis of recent urban conflicts and their historical antecedents, sociologist Anthony King explores the changing typography of the urban battlescape. Whilst

Ecocide in Ukraine: The Environmental Cost of Russia's War

Darya Tsybalyuk

Russia's war on Ukraine has not only destroyed millions of human lives, it has also been catastrophic for the environment. Forests and fields have been burned to the ground, animal and plant species pushed to the brink of extinction, soil and water contaminated with oil products, debris, and mines. On a single day in June 2023, the breached Kakhovka Dam flooded thousands of kilometres of protected natural habitat, as well as villages, towns, and agricultural land. The devastation of biodiversity and ecosystems across Ukraine has been immeasurable, long-lasting and its consequences stretch bey...

At the Margins of the Modern State: Critical Theory and Law

Seyla Benhabib

The international order of the post-WW II period is in disarray. The sounds of war can be heard all around us, from Ukraine to Gaza, from Darfur to the Congo, and there is growing skepticism towards human rights and democracy, the rule of law and peace among peoples.

Facile expressions such as "Eurocentrism" and "demise of the West and the rise of the rest" miss the real challenge in this situation: how to extend moral, legal and political universalism to address the experiences of the multitude of humanity for whom western modernity has brought not

Hypocrisy

Nadia
Urbinati

Virtuous Hypocrisy

Nadia Urbinati, Alice Kilgariff

Speak your mind, always. Hypocrisy challenges this rule of authenticity, and for this very reason hypocrisy is judged negatively, as intentional inconsistency between thoughts and words, between belief and behaviour. Does this make the hypocrite a silent saboteur of the moral order? A person who hides in the shadows and erodes the foundations of trust? Without trust there is no society, no friendship, no love.

But is hypocrisy always reprehensible? Nadia Urbinati argues that society, friendship and love all require a measure of hypocrisy – what she calls 'virtuous hypocrisy'.

Feminism, Defeated

Kate M. Phelan

Feminism has been defeated.

Once a politics, feminism is now a philosophy, an epistemology, a method. Once for women, it is now for everyone. Once in pursuit of liberation, it now seeks only inclusion.

In *Feminism, Defeated*, Kate Phelan traces the depoliticization and ultimately, the defeat of feminism. She recovers the second-wave view of men and women as sex-classes, enemies, political kinds, a view more radical than the contemporary view of men and women as social...

Process orchestration became pivotal to building a foundation for business agility, speed, and innovation. A process that is orchestrated end-to-end can integrate existing systems, human work, and the latest technologies like AI. It is the basis to understand how your business operates, how to improve processes, and how to innovate your business model. But how to adopt process orchestration successfully on an enterprise level?

Getting Over Ourselves: Moving Beyond a Culture of Burnout, Loneliness, and Narcissism

Christina Congleton

Move beyond empty "life hacks" to connect with your deepest humanity

In *Getting Over Ourselves: Moving Beyond a Culture of Burnout, Loneliness, and Narcissism*, human development specialist and leadership coach Christina Congleton delivers an insightful and urgently needed discussion of how people can break out of the tired clichés of the self-help genre, and move toward new levels of connection, engagement, and capacity in navigating an uncertain world.

In the book, you'll explore how modern attitudes of

Learning the Language of Depression: Overcoming Communication Barriers so People with Depression Are Safe and Understood

The Depression Project

In order for people with depression to feel safe and understood, it's essential to overcome depression's "language barrier"

As The Depression Project hears every single day from members of their 3,000,000+ person social media community, a "language barrier" often exists between people with depression and those around them — in the sense that many words, everyday expressions and non-verbal forms of communication can take on a vastly different meaning than they otherwise would when they

The Communication Code: Unlock Every Relationship, One Conversation at a Time

Jeremie Kubicek, Steve Cockram

Provides a proven series of skills and techniques that anyone can use to make their relationships thrive

Healthy communication is essential in any professional or personal relationship. When the lines of communication are frayed or broken, the resulting drama, unnecessary conflict, and inefficiency often lead to 'dropping the ball'. Better communication yields better results. It's a no-brainer—honest conversations build deeper, more productive relationships. It may seem simple in theory, but healthy communication is one of the most challenging

Institutional Economics: Theory and Practice

James I. Sturgeon

Institutions are the controlling force at the center of any economy. They organize and control all economic activity from markets to producers, consumers to governments, and more. Institutions determine how fundamental economic questions such as, what, how, and for whom, are answered. Thus, scientific analysis of economic activity requires a deep and systematic understanding of institutions.

This much-needed text provides students with a comprehensive introduction to the increasingly influential field of Institutional economics. Across its ten chapters, it

The Precarious Migrant Worker: The Socialization of Precarity

Panos Theodoropoulos

Migrant workers in the West are at the frontline of the precarious condition that is coming to dominate economic life in neoliberal societies. Yet despite the highly insecure and exploitative working conditions they routinely face, labour mobilizations by precarious workers are rare.

In this immersive portrait of the daily realities of precarious migrant labour, Panos Theodoropoulos found work in Glasgow's warehouses, factories and kitchens to uncover the ways that precarity is lived and contested. Connecting the realms of structure, subjectivity and culture, his

Price Setting

Truman F. Bewley

The prices of some products fluctuate dramatically, while others remain more constant. What accounts for these extreme differences?

Renowned economist Truman F. Bewley investigates and elucidates this puzzling problem. Its crux, he argues, is that differentiated product prices are usually stable, whereas the prices of undifferentiated products – for which buyers can easily find comparable substitutes – are often volatile. Although product differentiation gives producers market power, this power alone does not guarantee price stability. There are nearly undifferentiated products whose

When Nobody's Listening: Inside Sweden's Drug Gangs

Diamant Salihu, Jan Salomonsson

In a quiet little town in northern France, an improbable sequence of events takes place which will go on to transform completely the struggle against organised crime in Europe. It all starts when the French cybercrime police hacks into an encrypted service called Enrochat: suddenly anonymity crumbles and murder contracts and drug deals become visible on the screen. Police are able to follow communications between drug couriers, gang leaders, and teenage hitmen in real time.

To save lives, the police must respond quickly, but must also be careful not to reveal that they are listening in. As

Exile: Chronicle of the Border

Didier Fassin, Anne-Claire Defossez

In recent decades, the forced displacement of populations has fueled nationalism and xenophobia across the world, arousing fear and hostility. Policies have been implemented to deter migrants, crack down on humanitarian workers and externalize border monitoring in remote territories. Men, women and children who flee political violence, religious persecution or poverty in their country and set off on journeys often lasting years may find themselves on dangerous routes where they face police brutality, gang rackets, confinement camps, barbed-wire fences, the rigors of the desert and the perils o...

Introducing Museum Studies

Gordon Fyfe

Introducing Museum Studies is the first introductory textbook for museum studies. Providing a wide-ranging and original overview of museums from a historical and contemporary perspective, it covers key topics such as the history of the museum, the museum as a public space, visitors, and communities.

The book shows how museums, far from being neutral collections, exhibit objects which convey powerful symbolic meanings. This "cultural turn" away from the object as a *thing in itself* has placed museums at the centre of debates about public culture, citizenship, inclusion and

An Introduction to Journalism: Thinking Globally

Silvio Waisbord

Journalism remains a vital, irreplaceable institution in the public sphere, even though technology, political and economic trends, and globalization continue to impact it in negative ways.

An Introduction to Journalism is the new go-to textbook for journalism studies. Organized around three thematic sections – structures, practices, and change and continuity – this textbook covers a broad range of issues central to the study of journalism. These include the nature of news as a socio-cultural construct; the impact of social forces (political, economic, technological, cultural) on journalism;

Get Better Faster 2.0: A 90-Day Plan for Coaching New Teachers (2nd Edition)

Paul Bambrick-Santoyo

Coaching strategies and resources that will give new teachers a head start toward a successful first year—and a great teaching career

Over the past 20 years, more new teachers than ever have entered the teaching profession. These educators are eager to do the best they can with the students they have and the resources they have been given, but most will struggle to find their footing. And with the average new teacher receiving only 1 or 2 observations a year, many early career teachers exit the profession without reaching their full potential.

Fragility: A History of Plaster

Alain Corbin, Helen Morrison

The distant past is commonly characterized in terms of dominant materials of the time – the Stone Age, the Bronze Age, the Iron Age, etc. Since the dawn of writing, however, characterizing eras in terms of materials has fallen by the wayside. And yet materials have continued to exert a powerful influence on our perception of time and our collective imagination, whether it be iron in the late 19th and early 20th centuries or plastic today.

Viewed from this perspective, France in the period from 1815 to 1855 could be seen as the half-century of plaster. After the French Revolution, plaster w...

In Praise of Philosophy

Alain Badiou, Susan Spitzer

What kind of philosophy do we need for the 21st century? To answer to this question, Alain Badiou imagines a dialogue between Toc  ras, an earnest and engaging professor, and various interlocutors from different countries and philosophical cultures – John After from Britain, Amantha from Greece, B'adj Akil from Senegal, Xi La Pong from China and several others. Their conversation takes readers on a playful journey through the history of philosophy framed by the five great questions that have preoccupied Alain Badiou: democracy, freedom, universality, language and being.

The Singularity Paradox: Bridging the Gap Between Humanity and AI

Anders Indset, Florian Neukart

Understand humanity's opportunity to create Artificial Conscious Entities in response to the singularity

The Singularity Paradox: Bridging the Gap Between Humanity and AI is a comprehensive exploration of how the fusion of biology, neuroscience, and artificial intelligence can lead to the creation of Artificial Human Intelligence (AHI) as a conscious response to the unconscious development of superintelligence. You will learn about how:

The Rich and the Poor

Philip Kitcher

The Rich and the Poor is part chronicle, part analysis of a disturbing sea-change: the abandonment of ethics in public policy. Seventy years ago, it was possible for serious thinkers, including some in the governments of affluent nations, to consider policies for raising living standards worldwide. Today, by contrast, the principal policy questions revolve around how to stay on top in a dog-eat-dog world.

Philip Kitcher, one of the world's most eminent philosophers, offers a new account of how ethics and politics should mix. The world needs to explore and

Russia's Gamble: The Domestic Origins of Russia's Attack on Ukraine

Vladimir Gel'man

In February 2022, Russia launched a full-scale military assault on Ukraine, aimed at re-establishing Russian control over the Ukrainian state, economy and society, similar in many ways to the Soviet period. This goal, however, was not achieved, and most likely will not be achieved in the future. Rather, the Russian "special military operation" has resulted in extraordinary disasters and losses for Russia, for Ukraine, and for the entire world.

This book examines the origins of the Russian assault on Ukraine and offers an explanation of why it has not achieved its aims. Why did Russian attack...

The Non-Aligned World: Striking Out in an Era of Great Power Competition

Jorge Heine, Carlos Fortin, Carlos Ominami

Non-Alignment is back with a vengeance.

In recent years, the number of countries embracing this venerable approach to foreign policy has increased exponentially, making it a force to be reckoned with in world affairs. The war in Ukraine, the expansion of the BRICS group, and the conflict in Gaza have given a special impetus to its rise in a new form: Active Non-Alignment (ANA). This has gone hand-in-hand with the growing power and influence of the Global South in world politics.

To this second edition, Jorge Heine, Carlos Fortin, and

Transgender Rights vs. Women's Rights: From Conflicts to Co-Existence

Robert Wintemute

"Trans rights are human rights!" "Women's rights are human rights!" Yes, but the human rights of two groups often conflict. The only way to resolve these conflicts is through calm, rational, public debate. Freedom of expression protects the right of women to question certain demands by trans rights activists, even if this might offend. Raising conflicts between transgender rights and women's rights is not "transphobic", because disagreement is not hatred. The concept of "transphobia" should be defined narrowly as statements or acts indicating hostility or prejudice towards transgender pe...

The Triumph of Emotions: Geopolitics in an Age of Resentment, Anger and Fear

Dominique Moisi

Fifteen years ago, Dominique Moisi famously argued that the world was increasingly shaped by a 'dash of emotions' as the old politics of ideology faded. Asia was hopeful; the West was fearful; and much of the rest of the world felt humiliated. Moisi warned that this was a dangerously unpredictable world, that authorities had a responsibility to keep tempers cool. In this bold new book, Moisi reports that they have failed: We live in a world where emotions have triumphed.

One of the world's most influential analysts of international

Wanna Fuck?

Bel Olid, Laura McGloughlin

Following our desires, sharing pleasure: sounds easy, right? And yet our sexualities are conditioned by expectations, prejudices and taboos that make it difficult to listen to our own bodies, let alone anyone else's. Bel Olid clears away the taboos and invites readers to explore pathways to more connected sexualities and more pleasurable relationships. Because perhaps the first thing we need to learn about sex is to unlearn. Unlearn the desire we've been taught we must feel, unlearn the shame. Forget the bodies that we've been obliged to like, forget the behaviour presented as the only type p...

The Indian Civil Sphere

Jeffrey C. Alexander, Suryakant Waghmore

Indian democracy is in trouble. A still widely popular, democratically elected leader stands athwart it, dangerously authoritarian and disrespectful of civil liberties, the independence of the courts and the press, and disputatious vis-à-vis organized counter-powers. Leading intellectuals, Indian and Western, write about the death of Indian democracy and the passage to despotism. Despite these dear and present dangers, this volume suggests that the death of Indian democracy has been greatly exaggerated. To understand why, we must move beyond democracy narrowly understood as a governmental for...

Intimacy: Personal Relationships in Modern Societies (2nd Edition)

Lynn Jamieson

Where do we find intimacy today? Are our interactions with acquaintances and strangers, particularly online, a sign of deepening, widespread intimacy? Or are our personal relationships becoming increasingly empty, structured by selfish individualism?

In this second edition of her landmark book, Lynn Jamieson provides an updated exploration of the many types of intimate relationships that are formed in modern societies: families, kinship, friendships, parent-child relationships, sexual relationships and couple relationships. Examining new evidence, the book identifies the nature...

The Expressway World

Richard J. Williams

In the demonology of the contemporary city, is there anything more toxic than the expressway? Dividing neighbourhoods, depressing land values, concentrating atmospheric pollutants, the mammoth infrastructure of the expressway is now increasingly crumbling into the ground.

How did we build the expressway world in the first place? And what are we going to do now with it now?

This eye-opening book explores these questions partly through the great expressway abolitions of recent years,...

Stakeholder Whispering: Uncover What People Need Before Doing What They Ask

Bill Shander

Learn to uncover what your managers, clients, customers and other stakeholders need before doing what they ask

People don't know what they need. The wants we communicate to others are shaped by our subconscious and the familiar, and limited by what we think is possible. But they don't always reflect our actual needs.

In *Stakeholder Whispering: Uncover What People Need Before Doing What They Ask*, author Bill Shander demonstrates how to get from your stakeholders' "order"—what they're asking for—to what they really
